OR PRICING DATA--MODIFICATIONS `` (ALTERNATE III (OCT 1997))

(a) Exceptions from cost or pricing data.

(1) In lieu of submitting cost or pricing data for modifications under this contract, for price adjustments expected to exceed the threshold set forth at FAR 15.403-4 on the date of the agreement on price or the date of the award, whichever is later, the Contractor may submit a written request for exception by submitting the information described in the following subparagraphs. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted, and whether the price is fair and reasonable--

(i) Identification of the law or regulation establishing the price offered. If the price is controlled under law by periodic rulings, reviews, or similar actions of a governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.

(ii) Information on modifications of contracts of subcontracts for commercial items.

(A) If--

- (1) the original contract or subcontract was granted an exception from cost or pricing data requirements because the price agreed upon was based on adequate price competition, or prices set by law or regulation, or was a contract or subcontract for the acquisition of a commercial item, and
- (2) the modification (to the contract or subcontract) is not exempted based on one of these exceptions, then the Contractor may provide information to establish that the modification would not change the contract or subcontract from a contract or subcontract for the acquisition of a commercial item to a contract or subcontract for the acquisition of an item other than a commercial item.

(B) For a commercial item exception, the Contractor shall provide, at a minimum, information on prices at which the same item or similar items have previously been sold that is adequate for evaluating the reasonableness of the price of the modification. Such information may include--

- (1) For catalog items, a copy of or identification of the catalog and its date, or the appropriate pages for the offered items, or a statement that the catalog is on file in the buying office to which the proposal is being submitted. Provide a copy or describe current discount policies and price lists (published or unpublished), e.g., wholesale, original equipment manufacturer, or reseller. Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price or recent sales in quantities similar to the proposed quantities.
- (2) For market-priced items, the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market.
- (3) For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item.
- (4) The Contractor grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this clause, and the reasonableness of price. For

(1) The Contractor shall submit cost or pricing data and supporting attachments in accordance with Table 15-2 of FAR 15.408.

Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be

Offerors may send a fax using a personal computer or standalone fax machine, but it must be sent to the above number. If you use a standalone fax machine, you won't receive a confirmation of receipt. See paragraph (e) below for the minimum requirements of your offer. Maximum size of datafax offers is three and one-half megabytes (3.5MB), the same limitation as that for e-mail offers. For your datafax, use the same subject line as that for e-mails as indicated above: "OFFER--[solicitation number], [name of your Company/offeror], CLOSES [closing date]".

NON-DISCLOSURE AND NON-USE OF SELLERS INFORMATION

Definitions

Proprietary Information means any information, technical data or know-how in whatever form, including, but not limited to, documented information, machine readable or interpreted information, information contained in physical components, maskworks and artwork, that is clearly identified as being confidential, proprietary or a trade secret. Information transmitted orally or visually shall be considered to be Proprietary Information provided such Proprietary Information is identified as such by the disclosing Party prior to disclosure, reduced to written summary form, marked as being confidential or proprietary by the disclosing Party, and transmitted to the receiving Party.

Terms

The receiving Party shall hold each item of Proprietary Information so received in confidence and never disclose it except as permitted in this Agreement. The receiving Party shall protect Proprietary Information using the same degree of care it uses to protect its own Proprietary Information, but in no event less than a reasonable degree of care. Neither Party shall be liable for inadvertent disclosure or use, provided that upon discovery of such inadvertent disclosure or use, the receiving Party shall notify the original disclosing Party immediately, and shall endeavor to prevent any further inadvertent disclosure or use.

The receiving Party shall have no duty to protect information that is:

- a. Developed by the receiving Party independently of the disclosing Partys Proprietary Information as supported by the receiving Partys written records;
- b. Rightfully obtained without restriction by the receiving Party from a third party;
- c. Publicly available other than through the fault or negligence of the receiving Party;
- d. Released without restriction by the disclosing Party to anyone as supported by the receiving Partys written records; or
- e. Known to the receiving Party at the time of its disclosure, without an existing duty to protect the information.

The receiving Party shall disclose the Proprietary Information only to its employees and contract employees having a "need to know" with respect to the Purpose. The receiving Party shall ensure that each such employee or contract employee is aware of this Agreement and has signed a contract making the employee or contract employee subject to confidentiality obligations no less stringent than those imposed upon the receiving Party under this Agreement. If authorized in writing by the disclosing Party, the receiving Party may disclose Proprietary Information of the disclosing Party to a third party; provided:

- a. The receiving Party requires the third party to enter into a proprietary information agreement with terms and conditions no less stringent than those imposed upon the receiving Party under this Agreement; and
- b. Such executed agreement is provided to the disclosing Party prior to disclosure of any Proprietary Information.

During the term of this Agreement the receiving Party may use the Proprietary Information only with respect to the subject matter of this Agreement.

Except as authorized in this Non-Disclosure and Non-Use of Sellers Information clause herein, the receiving Party may never use or disclose the disclosing Partys Proprietary Information, in whole or in part, for any purpose, including but not limited to:

- a. Manufacture or enable manufacture by itself or any third party of the disclosing Party's products, products similar thereto, or products derived therefrom, without the prior express written consent of the disclosing Party;
- b. De-compile, disassemble, decode, reproduce, redesign, reverse engineer or manufacture any products or equipment of the disclosing Party or any part thereof;
- c. Perform any services, including services relating to the products or equipment of the disclosing Party; or
- d. Deliver under a contract or make subject to a "rights in data" clause or equivalent clause.

Proprietary Information shall remain the property of the disclosing Party. Nothing in this Agreement shall be construed as granting or conferring any rights on the part of the disclosing Party by license or otherwise, expressly or implied, to any invention or discovery, or to any patent covering such invention or discovery.

Upon written request of the disclosing Party, the receiving Party agrees to return the disclosed Proprietary Information and all copies thereof to the disclosing Party, or destroy the disclosed Proprietary Information and provide a written certificate of destruction to the disclosing Party.

The terms and conditions of this Non-Disclosure and Non-Use of Sellers Information clause shall survive expiration or termination of this Agreement.

SOFTWARE LICENSE

In the event that any software or software documentation is provided to Buyer by Seller in any form whatsoever under this Agreement and no software license agreement governing the sale has been signed between Buyer and Seller, Buyer agrees to accept the terms and conditions stated in this Software License clause (the Software License) effective the date of the first delivery hereunder.

Seller shall retain title to all software and software documentation. Subject to the terms and conditions of this Software License, Seller grants to Buyer a nonexclusive, nontransferable license to use the software or software documentation only:

1. In the course of the normal operation in or with Products which are installed, or are intended to be installed, on Buyers products;
 2. In the analysis or the formatting of reports using data from Products; or
 3. On Products or non-Seller products that are used by Buyer to test, maintain, download, or process information compiled by Products.
- Making copies of software or documentation except for one copy for archive purposes is prohibited unless specifically authorized by Seller in writing. If such copying has been authorized, Buyer will reproduce and include all Seller proprietary and copyright notices and other legends in the same manner that Seller provides such notices and legends, both in and on every copy of licensed software and documentation and in any form.

The Software License and rights granted by Seller to Buyer hereunder are personal to Buyer. The licensed software and documentation may not be sub-licensed, transferred, or loaned to any other party without Seller's prior express written consent, except that Buyer may transfer the licensed software and documentation in conjunction with the resale of the Product, Buyers product, or Seller supplied test equipment in which the licensed software and documentation is installed or with which it is used. Such permission to transfer is contingent upon the resale or transfer of Buyer's agreement to use and protect the confidentiality of the licensed software and documentation under the same or similar terms as those set forth in this Software License. Buyer will, however, notify Seller in writing of the transfer of the licensed software and documentation.

Buyer agrees to utilize all licensed software and documentation only as authorized herein. Buyer may not either itself or with the assistance of others, make modifications to the licensed software and documentation, including, but not limited to, translating, decompiling, disassembling or reverse assembling, reverse engineering, creating derivative or merged works, or performing any other operation on licensed software and documentation to recover any other operation on licensed software and documentation to recover any portion of the program listing, object code or source code or any information contained therein.

Buyer agrees to accept and retain licensed software and documentation in confidence. Buyer agrees to take appropriate action by instruction, agreement or otherwise with Buyer's employees, or agents or other persons who are permitted access to licensed software and documentation as follows: to inform said employees, agents or other persons who may come into contact with it of the confidential nature of licensed software and documentation; and to satisfy its obligations under this Software License with respect to use, copying, and protection and security of licensed software and documentation.

This Software License is effective as of the date of first delivery hereunder and shall continue until terminated by Buyer for any reason whatsoever upon thirty (30) calendar days prior written notice to Seller, provided Buyer ceases using and either returns or destroys Seller software and documentation; or by Seller, if Buyer does not comply with any of their terms and conditions of this Software License and Buyer fails to remedy such failure within thirty (30) calendar days after having received notice from Seller of such failure.

Notwithstanding the warranties provided elsewhere herein, Buyer acknowledges that licensed software and documentation may be product, aircraft or sensor specific and, as such, may require reasonable adjustment or refinement to suit Buyer's specific requirements. Buyer shall provide reasonable aid to Seller in accomplishing such adjustments and refinements. Such reasonable adjustments or refinements shall commence on the date of delivery and be provided by Seller to Buyer for a period not to exceed ninety (90) calendar days unless otherwise provided for in writing.

Buyer agrees that it will not use the licensed software and documentation in the performance of a contract, or subcontract, with any government in a manner so as to affect Seller rights to licensed software and documentation. If Buyer desires to use the licensed software or documentation in the performance of a contract or subcontract with a government, prior to such use, Buyer shall consult with Seller as to the procedures and use of restrictive markings required to protect the ownership interest of Seller.

This license and sale is subject to the laws and regulations, and other administrative acts, now or hereinafter in effect, of the United States and other governments and their departments and agencies relative to the exportation and/or re-exportation of licensed software and documentation. Buyer acknowledges that it will be responsible for compliance as necessary with such laws, regulations and administrative acts.

Seller agrees to use reasonable efforts to secure any licenses or permits as may now or hereafter be required by the U.S. Government in connection with the performance of Sellers obligations under this Agreement, but this will not be deemed to require any performance on the part of Seller which cannot lawfully be done pursuant to the laws, regulations and acts referred to above.
